From Farm to you

Cumin | Fennel | Coriander
Sesame | Peanuts | Wheat & More...

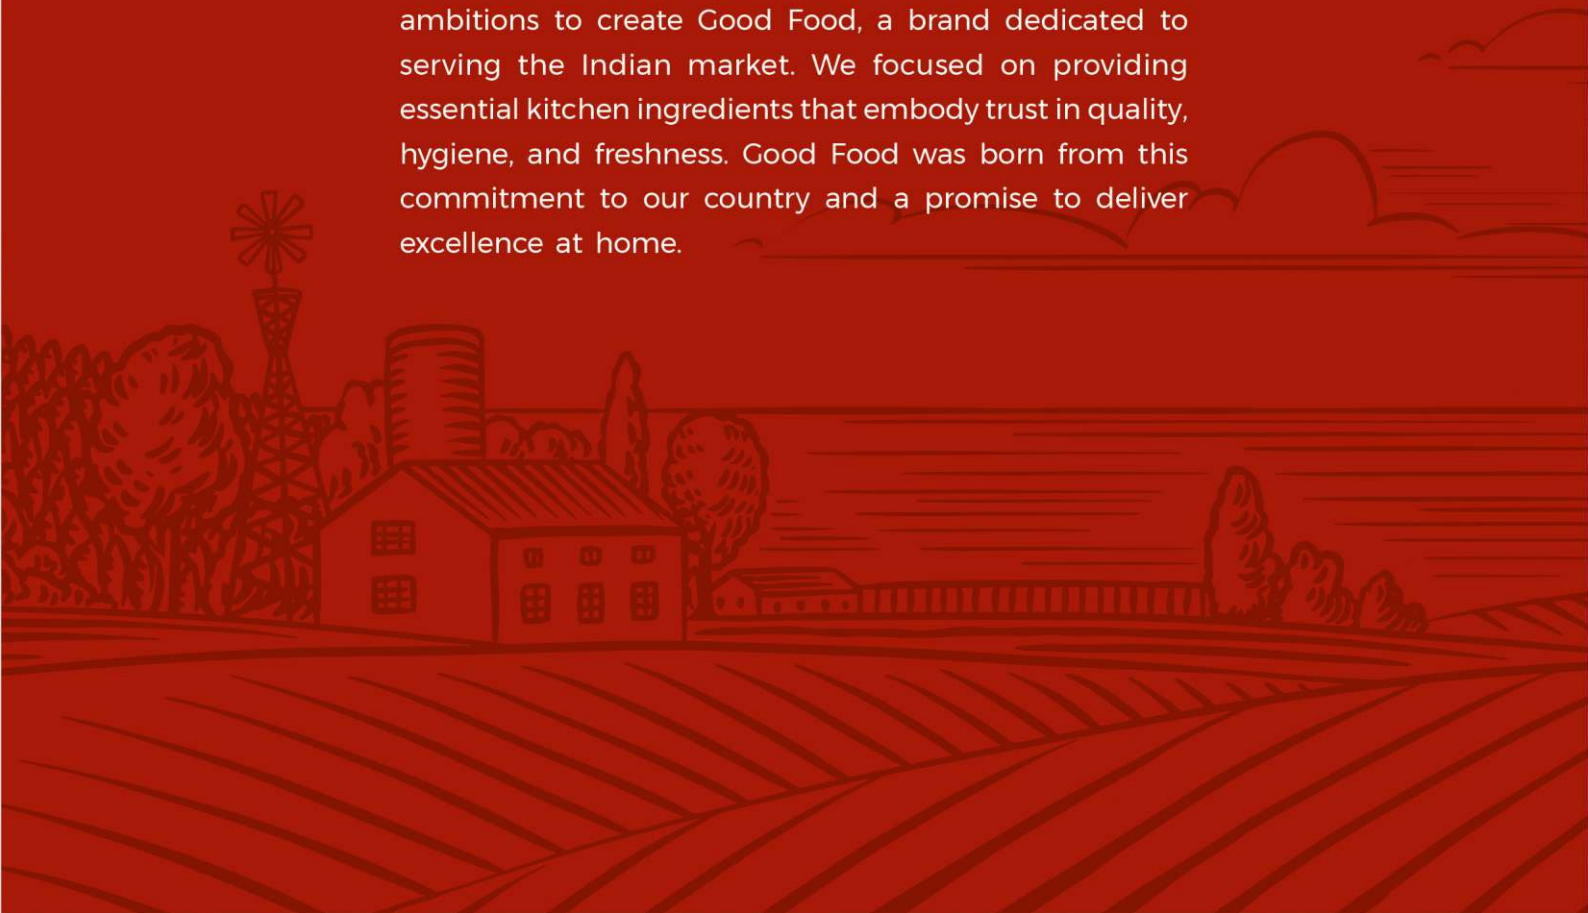

FRESH • CLEAN • PURE

OUR STORY

Good Food's journey started with a vision to expand our peanut exports through innovative value-added products. However, the COVID-19 pandemic and its repercussions led us to reassess our direction. During this period of reflection and change, a meaningful family event inspired us to pivot and refocus our efforts.

This key event ignited a deep sense of responsibility and a desire to contribute meaningfully to our community. We realized that, more than ever, there was a need to focus on supporting local needs.

With this renewed purpose, we pivoted from our export ambitions to create Good Food, a brand dedicated to serving the Indian market. We focused on providing essential kitchen ingredients that embody trust in quality, hygiene, and freshness. Good Food was born from this commitment to our country and a promise to deliver excellence at home.

ABOUT US

“Good Food” offer high-quality products like cumin, fennel, coriander, sesame, peanuts, wheat and more. our focus is on giving you fresh, natural ingredients without any artificial additives. Whether you’re a shop, a restaurant, or cooking at home, you can count on “Good Food” for safe, healthy, and flavourful ingredients. With us, you get the best, Straight **from farm to you.**

OUR VISION

Our vision at Good Food is to become a trusted name in providing high-quality, natural ingredients across the country. As we grow, we’ll continue to offer fresh, responsibly sourced products that support healthy living and local farmers.

OUR MISSION

We believe that nutritious, fresh, and additive-free products can improve well-being and lead to a healthier nation. By offering safe and wholesome ingredients, we aim to play our part in making India healthier, one meal at a time.

OUR PRODUCTS

- PEANUTS
- FENNEL
- SESAME
- CUMIN
- CORIANDER

Packing : 25kg (Vacuum)

Peanuts are tasty, nutritious legumes packed with protein, healthy fats, and vitamins. They grow underground, mostly in warm areas, and are used in many foods and products around the world.

Packing : 30kg (BOPP)

Fennel seeds add a sweet, anise-like flavour to dishes and aid digestion. They're popular in cooking and as a post-meal digestive aid.

NATURAL WHITE

BLACK SESAME

Packing : 30kg (BOPP)

Sesame seeds add a nutty flavor and crunch to dishes. They can be used in cooking, baking, and to make tahini, a paste used in various recipes. They're also the base for sesame oil, which is popular in many cuisines.

Packing : 30kg (BOPP)

Cumin seeds are a popular spice used in many cuisines around the world. They have a warm, earthy flavor with a bit of a citrusy undertone.

Packing : 30kg (BOPP)

Coriander seeds bring a subtle, aromatic spice to dishes with their mild, citrusy notes. They also offer potential health benefits, including digestive support and anti-inflammatory properties.
